

Minor Oral surgery & Basic Implantology for DCPs

Registration and details: academy@dent-hub.co.uk

Contact no: 01452929323

FEBRUARY 13th 2026

Course Delegate Information Pack

This interactive course is intended for and aimed at DCPs who will be involved with assisting with Minor Oral Surgery (MOS) and basic Implantology in their practice.

A full study day taught by an implantologist and his team for the Dental nurses which will get them prepared for the MOS and Dental Implantology cases in a general practice.

Hands-on part of the day will enable them to learn the scrubbing techniques and interactive sessions will be focused on the instrumentation and components used in MOS and Implantology cases.

Learning Objectives

Delegates will be able to understand:

- MOS & implantology procedures
- The instruments and components used in MOS/ implant cases
- Scrubbing and draping for surgical procedures.
- Assist MOS and Dental Implantology procedures
- Importance of working as a team to manage surgical patients
- The principles and techniques involved in surgical procedures and implantology.

- The importance of the aseptic technique and how to scrub-up, gown-up and drape a surgery
- The names and use of instruments on a MOS tray and the chronological sequence during minor oral surgery and dental implantology

Course Tutor

Michelle Cutler RDN Cert DPM
Specialist Consultant

Email: m.cutler@wrights-cottrell.co.uk Tel: 07776297342

Short intro:

Michelle Cutler brings almost 40 years experience in both dental nursing and delivering hands-on tuition to dental professionals in house and in practice. A GDC Registered Dental Nurse and Examiner for the NEBDN and previous tutor for The National Certificate in Dental Nursing, Michelle has a passion for Implant Nurse Training, Oral Surgery and Endodontics. She provides 'hands on' delivery of the company's wide-ranging portfolio of courses, and is also heavily involved in developing new training programmes, organising a variety of CPD events for dental professionals, along with her role as Specialist Consultant for Surgical and Endo. Michelle can deliver CPD Implant Nurse Training Courses & Endodontic Nursing Courses within the practice for your team, and also assist you with any Surgical or Endodontic requirements. Including setting your practice up with a bespoke customised drape pack that will help to make your set up more cost effective and efficient.
